# Tips

### Clear before EXIT

EXIT stays locked until hostiles are down - FOES counter is your progress.

### Candy-cane slash

J swings a neon blade with a candy-cane overlay - close range, high impact.

### Force-warp (F)

Knock drones and bots back when crowded; battery loot shortens the cooldown.

### Gun pickups

Pistol, blaster, and cannon auto-fire for a few seconds - grab them mid-run.

### Themed collectibles

Cake toffee, Tesla toys, SpaceX moon/mars rocks - bonus flavor on L2-L4.

### Boss finales

L3 ends with the Carbot car-droid. L4 ends with the Rocket boss near EXIT.

### Pads matter

Grip, ice, and bounce pads change footing - read the color before you leap.

### Beat your best

Times save per level in localStorage - press R for an instant retry.
